

## Designer Glass Radiant Panels

The designer range of glass radiant panels offer an ultra modern, visually stunning range of heaters that will enhance any rooms aesthetics.

Primarily intended for heating living areas they could equally be used in commercial applications in offices and reception areas.

They are available in five different finishes: mirror, white, black, red or green.

- Frameless design with 12mm toughened glass and honed edges
- Intended for wall mounted installation, hidden wall brackets are supplied for discreet mounting of the unit
- Supplied with connection lead for hard wiring
- Protection: Class II, IP44
- Floor supports available for applications where the panel cannot be wall hung
- Stainless steel towel rails available designed to fit the designer glass radiant panels
