

## Ecosun Glass Panels (with frame)

These far infrared heating panels provide gentle natural warmth. This radiant warmth provides both cost effective and efficient comfort as either primary or complimentary heating.

The panels offer improved thermal comfort conditions in home or office environments combined with high energy efficiency compared with traditional central heating.

They are available in white, black, mirror effect or with a custom digital print.

- Aluminium framed design
- Safety glass emitting surface
- Supplied with connection lead for hard wiring
- Rear mounting brackets for wall or ceiling mounting

Panel	Output (W)	Dimensions (mm)	Glass Colour
