

## Sorrento Infrared Weatherproof Heater

The robust Sorrento infrared heater range has been expertly manufactured in the UK in a lightweight, aluminium extrusion body.

The Sorrento is one of the most installed infrared heaters, due to its exceptional build, easy installation and unrivalled aesthetics.

The Sorrento is durable in all weather conditions, making it the ideal heating solution for restaurants, bars and other establishments looking to maximise the potential for their outdoor areas all year round.

- Designed and manufactured in the UK
- Virtually maintenance free and easy to install
- Exceptional reliability
- Easy to change lamps
- IP55
- Available in 3 standard colours with the option of any RAL colour
- 96% of energy consumed is direct heat radiation
- Heat is directed to the person/object below, and next to no heat is lost to the air

Panel	Output (W)	Dimensions (mm)	Weight (kg)	Recommended Minimum Mounting Height (m)
SOR215IP	1500	402 x 227 x 112	3.4	2.0
