

# Radiant Heating & Cooling

**Nationwide fully-integrated installation service with 10 year guarantee**

Through our teams of highly experienced employed fitters and carefully selected and trained sub-contractors, Solray offers a full installation service for all of our panels.

We cover all of the UK and Ireland managed through our highly experienced 'North' and 'South' regional installation managers who oversee every job.

All of our fitters have product-specific knowledge which makes them faster and better able to respond to site-specific situations. We are CHAS accredited and have extensive training and certification in all aspects of our installation work.

Where we install our products, we offer a ten year guarantee on both the product and the installation. For added peace of mind, the guarantee period can be extended to twenty five years upon payment of a small additional premium.

Solray fitters are completely integrated with the rest of our operations and are therefore the best way of achieving a seamless experience on your project.
